SmartKing™

SmartKing™ Fingerprint with cardreader

33 mm

44.13 mm

115 mm

70.00 mm

70 mm
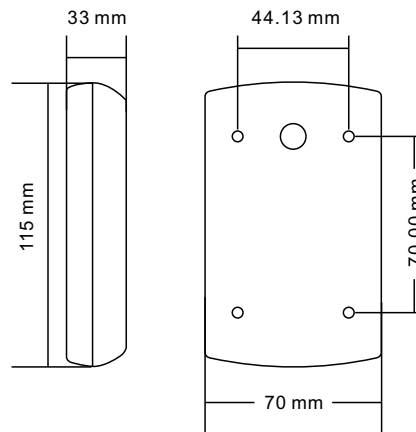

TECHNICAL CHARACTERISTICS

- **Power Supply:** 12VDC ±10%
- **Card Type:** 125 KHz EM
- **Card Max. Users:** 2.000
- **Fingerprint Max. Users:** 1.000
- **Manager Cards:** 2
- **Static Current:** ≤ 20mA
- **Active Current:** ≤ 80mA
- **Fingerprint Input Time:** <1s
- **Identification Time:** <1s
- **FAR:** <0,0001%
- **FRR:** <0,1%
- **Reading range:** 2 - 6 cm
- **Reading time:** ≤0.1s
- **Door Open Time:** 0-99 s
- **Anti-Static:** 15KV
- **Operating Temperature:** -20°C~60°C
- **Operating Humidity :** 20-95%
- **Dimensions:** 115 mm x 70 mm x 33 mm (L x W x H)

"All models, types, values, rates, dimensions, a.s.o. are subject to change, without notice"

CHARACTERISTICS
- Metal structure, anti-vandal, simple & safe design   .
- Supports Fingerprint & ID Card
- Using the dark background imaging technique, makes the dry/wet fingerprints always easy recognisable, in variant light conditions except the direct solar radiation.
- Can add/delete the users' fingerprints by manager fingerprints/cards very quickly.
- Infrared remote control for programming
- Anti-magnetic, prevents opening the door illegally by magnetic force
- Built-in PIR (passive infrared) to wake up the device from sleep mode
- Wiegand 26 input & output.
- Supports interconnected,interlocking, door ajar, forced, shunt, monitor and secure mode.

ORDER INFORMATION
- **PA240401 :** Fingerprint Access Control with built-in cardreader
